No. 8.
COMMUNAL WORKS.

*Penalty
for non-observance.*

1. Communal Works are works which it is a native's duty to perform every year for the health and comfort of himself and his own people in their island.

2. These are the proper objects of Communal Works: the island roads; the island hospitals; the island Government Stations; the houses, latrines, maneabas, and sea-walls in the villages.

3. The following are not proper objects of Communal Works: the buildings or other property of traders, or companies, or missionary societies, or the Colonial Government. These are objects of private work, which a native may refuse to perform if he thinks fit, or may agree to perform if he likes, at any rate of pay which he chooses to accept.

4. Communal Works shall be performed by all able-bodied natives between the ages of 16 and 60, who have not been specially exempted from such work.

5. The following able-bodied natives of working age are exempt from the performance of Communal Works: Government officials and police; missionaries and school teachers; one domestic helper for each native magistrate, chief kaubure and scribe, and for each mission teacher in charge of any village school; persons who have retired after 20 years' service with the Government or a mission; persons resident within certain schools named by the Government, for the purpose of receiving special training for religious or educational purposes; persons employed by Europeans under registered contracts for periods exceeding one month, according to sections 13—15 of King's Regulation No. 1 of 1915.

6. The following able-bodied natives of working age must perform their share of Communal Works within the year, but may be allowed by the Government to complete it at times convenient to themselves or their employers: domestic servants, not under contract, employed by Europeans; casual workers, employed for day labour by Europeans; persons employed under contracts for periods not exceeding one month.

7. No native shall be required to perform Communal Work for more than 52 days in any period of 12 months.

8. The season of Communal Work shall begin in the first week of April each year.

9. During March each year the Native Court shall give the people in advance a list of all the

Communal Works to be completed in the next season of work. No works shall be added to the list after the beginning of the season of work, except such as may be rendered urgently necessary by fires, tempests or other acts of God.

*Penalty
for non-observance.*

10. The manner of performing Communal Work in any village shall be decided by the majority vote of the people in that village. If the villagers elect to do time-work, then each man shall be given his separate share of work and shall work for two days each week until he has finished his share, or until he has completed 52 days of work, whichever is the shorter period. If piece work is preferred, then the villagers may decide by majority vote how many days each week they will work, and organise themselves into one or more gangs who all together shall perform the work in hand.

11. When a man or a village has completed its set work, it shall rest until the following April, and until then may not be called to perform any more Communal Work except such as may be rendered necessary by an Act of God.

12. For the purpose of building or repairing island hospitals or island Government Stations no native shall be called to work for more than two days in any one week outside his village, except when the workers of his village elect by a majority vote to do so in order to expedite the completion of their work. In no case may workers elect to remain away from their village for more than 7 days together inclusive of the time taken in reaching and returning from their place of work; nor shall more than half the workers in a village be absent from that village at any one time.

13. A native who is late for Communal Works, or absent from them without permission, may be fined from 1s. to 5s. by the Native Court.
