29th July
Semester 2 commences

We are now coming to the business end of this semester with assignments due and the exams period will soon be upon us. Ensure you prepare for the exams and use your time wisely, develop a study plan and if you don't understand anything that has been covered in your courses, ask. Please double check your exam day, time and location. For those doing their exams at Wayville, make sure you work out how you are going to get there each day and how long it will take you. Arrive at your exams with enough time to be able to do what you need before going in to the exam. Once you are in there, READ the paper carefully – note any instructions about answering questions on the paper or in a book or on a particular sheet.

Results from your exams should be available through your Access Adelaide account after 16th July. Check and note your results, especially if you have been granted a replacement (for medical or compassionate reasons) or an additional (for academic reasons) assessment/exam. If you have been given an additional assessment/exam and do not complete it, you will FAIL that course. If that course is a pre-requisite for a higher year level

NEWS FROM THE APO

course (e.g. Chemistry & Foundations of Chemistry are both pre-requisites for Animal & Plant Biochemistry), you must repeat that course before you are able to enrol into that higher level course. For the animal science students, that means a slight rearrangement of your study plan; for the veterinary students, that means you will drop back a cohort and will have quite a significant impact on your study plans. If in doubt about anything, ASK!!! Also, you should check the Examinations website if you have any questions about that: <http://www.adelaide.edu.au/student/exams/>

Wishing you all the very best with your exams.

Animates Peer Networking Program

The Animates Peer Networking Program would like to wish all the first year students all the best for their first university examination period.

A few tips I can offer you are;

- ◆ *Do as many past exam questions as possible.*
- ◆ *If you have time it can also be handy to do a practice exam under exam conditions. Three hours plus ten minutes reading time, no notes, books, etc.*
- ◆ *Finally DON'T forget your ID card.*

I would also like to thank all of you who came to our **pancake breakfasts**. We hope that it helped you to settle into university and that you were able to ask any questions you had.

I will be sending out a **survey** to the first year students to get any feedback on your experiences with Animates. There will be **prizes** available, including a \$50 Unibooks voucher and Maitidli Café (the Roseworthy Café) vouchers, to those who do the survey and send it back to me by the date specified. All surveys will be put in a hat and winners of the prizes will be drawn out randomly. By completing this survey you can help the Animates better serve future first year students

in settling into uni life.

At the start of second semester there will be a call out for anyone who would be interested in becoming a Peer Mentor or student leader. Animates is always on the look out for more mentors and student leaders, so if you are interested keep an eye out for an email from the Transition and Advisory Service or alternatively you can email me at simon.pols@adelaide.edu.au and let me know of your interest and I will make sure to pass on any information to you.

All the best,

Simon Pols., Animates Coordinator

Million Paws Walk

Perhaps there weren't actually a million paws, but there were certainly many thousands of paws at Bonython Park on Sunday 19th May for the RSPCA's Million Paws Walk. And those paws and their attached bodies

could get a health check at the AVA stand, staffed by practicing vets ably assisted by veterinary students – specifically, Ringo Chan, Bernadette Frey, Man-hei Ma, Tina Niap, Lauren Pfitzner, Andrea Reiger,

Alicia Rochler, and Jia Wen Siow. Here's some pikkiees showing some of the action.

- Dr Philip Stott

Man-hei and Tina pose during a break in the action

Andrea and Man-hei doing their bit.

Tina takes details while Man-hei waits for the next client.

Alicia hunts for the microchip.

Man-hei and the client are happy, but the pug's a bit worried about those personal secrets being recorded by Dr Anne-Marie Moody.

Bernadette, the client, and some megadogs share a joke while Andrea keeps on task.
