## NEWS FROM THE APO

We are just over half way through the first semester. We now have student representatives that sit on various committees within the School (refer to the list in this newsletter). This important role involves attending monthly meetings and providing that valuable link between the programs and students. It is an opportunity for the representatives to provide feedback and information from a student perspective and can help shape the future of the programs.

We held the annual Recognition Evening on Monday 15th April. The event was held in the new Veterinary Building with 60 people attending consisting of staff, students, parents and the many donors that have donated prizes to the School. 13 students from all three programs and honours were awarded various prizes based on their academic achievements. Congratulations to all winners, photos can be found in this newsletter.

Exams will soon be upon us and for first year students remember everyone learns differently so find a way that suits you and make a plan. Plan a study schedule and ensure you give yourself enough time in the weeks leading up to the exam. While some students may find it beneficial to study in groups others prefer to study alone. Whichever method you use consider reviewing old exams, reviewing lecture and tutorial material, get support if you need it and ask the lecturers questions they are here to help you and want you to succeed.

All the best for the rest of Semester 1.

## Some hints for searching in Library Search

When searching for a **known title** in the new Library Search function, it is more efficient to use the “Starts with” option along with “In the title” Or by selecting the **Resource Guides** tab on the Library home page and selecting **Sciences**.

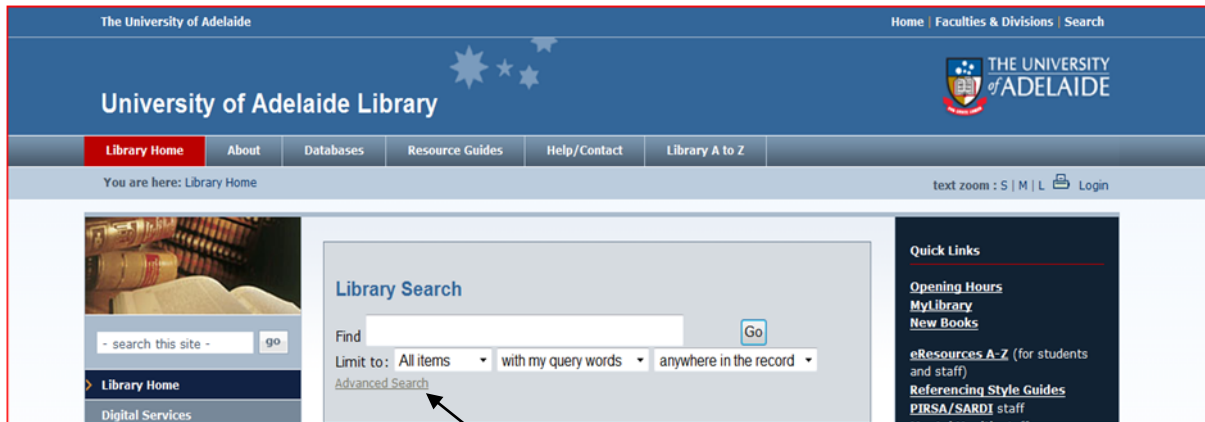

When you find the title you require, remember to click on the **Locations & Requests** tab to see if the item is on loan. Please note that “High use” items are located in the Reserve Collection.

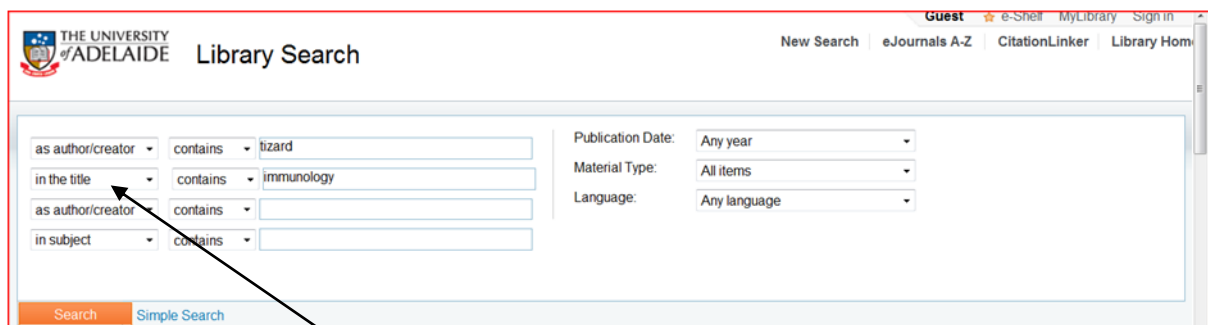

## NEWS FROM THE LIBRARY continued...

When **unsure of the exact title** of an item, it is wise to use the “Advanced Search” option

Advanced Search gives more options for searching

This option gives you much more flexibility to search over different fields. You can enter a key author and any word that may be in the title.

You can search in specific fields ie Author or Title

## Special Interest Groups (SIGs)

### Adelaide University Equine Special Interest Group

On Saturday 6th April, 13 Equine Special Interest Group students participated in a Castration Clinic at Adelaide Plains Equine Clinic. The day went well with all students participating. We found out certain students are right handed strippers and that a good castration is harder, faster, stronger. Many thanks to Elizabeth Woolsey-Herbert and the staff at Adelaide Plains for making this day possible. Thanks also to the ambulatory clinic for the donation of surgical gloves.

# IS THIS YOU?

I wake up everyday planning to be productive and then a voice in my head says "Haha good one!" and we laugh and laugh and take a nap.

If the answer is YES then keep reading....

**STOP PROCRASTINATING & try these 8 simple tips**

**Procrastination = needless stress for you.** By procrastinating, you put yourself under an energy-draining emotional strain. Procrastination is the opposite of success.

**Breakdown overwhelming tasks into small ones.**

**Do a start-up task to break the stalemate.** If your goal is to get an assignment completed, go to the library and check out some interesting books and periodicals on the subject or do some research on the internet.

**Work on your goal for a set period of time.** Set a timer for 30 – 50mins and ensure you're in an environment conducive to achieving your goal.

**Use your moods to your advantage.**

**Procrastination can also mask ambivalence.** If you're still doubtful about your goal, list out the pros and cons of accomplishing it. If the advantages don't outweigh the disadvantages, then ask yourself why you're trying to achieve this goal.

**Make a contract with a friend or a colleague that you'll meet your goal by a specific date.** If nothing else, fear of embarrassment will motivate you.

**Lastly, reward yourself for meeting your goals beginning with your first steps.** Treat yourself for achieving your goal!

# Safe Steps

Simple steps to stay safe for when you leave campus!

1. Find the most open and well-lit public path.  
Whenever possible, walk with a friend or in a group or contact security to arrange an escort if you are walking alone after dusk.
2. Stay alert and be aware of your surroundings: confidence deters attackers.
3. Be prepared to call for help and consider carrying a whistle or personal alarm.
4. Avoid undergrowth and be wary of strangers.
5. Move your car closer to buildings during the day if you are planning to stay on campus after dark.
