## 1998 ROCA AWARD OF MERIT

### Ian Young

1998 ROCA Award of Merit recipient, Ian Young, with ROCA President, Dr David Cooper

Ian Young (RDA 1960) has dedicated his life to the teaching of agriculture to young people. As Head of the Agricultural Studies course at Westminster School in Adelaide since 1972, he has proved himself to be the Agricultural teacher of the 20<sup>th</sup> Century. His leadership and teaching style has enabled students to cope with the continual series of changes they currently encounter and provided them with the confidence to face the inevitable challenges of the 21<sup>st</sup> Century.

He has an all-consuming passion to help others to both realise and develop their potential interest in food production and the Australian environment. Ian is able to assess young people and encourage them by example. He uses both lateral thinking and objective rational thought processes to lead his students through the process of responsible actions.

The highlight of Ian Young's teaching methodology has been the establishment of "Sturt Grove", a small self-sufficient farm with diverse enterprises run by the students. Since being provided with initial seed funding of \$3,000 in 1978, the value of the property (excluding land) is now in excess of \$400,000.

"Sturt Grove" is a practical model farm aimed at teaching year 9 to 11 students how they can produce food for their own survival. The farm provides added incentive and motivation for the students to study Agricultural Science at tertiary institutions and to become successful farmers. The "Sturt Grove" shop sells agricultural produce on a weekly basis to gross in excess of \$60,000 per annum.

Following graduation from Roseworthy Agricultural College in 1960, Ian Young studied teaching at Adelaide University. His agricultural teaching experience is quite extensive, having taught at Oakbank Area School (1963), Orange (1964-1969), England (1967), Navuso Agriculture College in Fiji (1970-1971), and Westminster School since 1972.

Outside of his agricultural interests, Ian is also sailing coach for Westminster School.

Ian young is a worthy recipient of the 1998 ROCA Award of Merit and joins the listing of thirty seven previous awardees.

### NEWS FROM JOHN MAXWELL-GORE

Former ROCA President, John Maxwell-Gore, is a frequent correspondent to the Association from his home in Bacolod City, Philippines. As a Major General (Ret.) in the Philippines, John's affiliations with anti-Marcos groups tend to restrict his movements. Because of this, he would like to convey his sincere apologies to all ROCA members for his inability to attend the Centenary Celebrations at Roseworthy during 1998.

# ROCA CENTENARY MEDAL

## Harry Stephen

ROCA Centenary Medal recipient, Harry Stephen, with ROCA President, Dr David Cooper

The "*ROCA Centenary Medal*" was a once-off award, conferred only in 1998, the Centenary Year of the Association. It recognised a person who had made a major long term contribution to the Roseworthy Old Collegians Association.

In the Centenary Year of ROCA, it was an honour for the Association to recognise the efforts of a man who had helped to shape the destiny of the Association for half of its 100 year history.

Harry Stephen has been an active member of the ROCA Committee for a continuous period of 51 years.

Following graduation from Roseworthy Agricultural College with a Diploma in Agriculture in 1948, Harry Stephen became a committee member of ROCA in 1949 as the first-ever Treasurer of the Association. (Previously the position was a combined Secretary/Treasurer).

During the subsequent 50 year period, Harry Stephen has served ROCA in many ways including terms as President, Secretary, Treasurer and Committee-person. His terms as President were 1967-68 and 1984-86.

Harry Stephen has also held very close links with Roseworthy Agricultural College itself. Upon graduation, he was employed as a sheep cadet at the College, followed by a very long period on the College staff as lecturer in Poultry Management.

During the latter part of his working life, Harry Stephen maintained close links with the College through his role as Senior Poultry Adviser with the S.A. Department of Agriculture.

While it is impossible to detail the enormous amount of effort put into ROCA by Harry Stephen during the past 50 years, it is noteworthy that in the 100 years of ROCA history, Harry Stephen is the only person to have ever offered this amount of service to the Association.

He worked extremely actively during some of the most important periods of the Association's history, including fund raising and erection of the Soldiers' Memorial Chapel at the College.

Harry Stephen is an extremely worthy recipient of the "*ROCA Centenary Medal*".

## **\$2.9M INVESTMENT IN ROSEWORTHY CAMPUS**

The South Australian Government and The University of Adelaide have joined forces in a \$2.9 million investment in Roseworthy Campus.

Under the plan, the Roseworthy Campus will become an industry-focused education, research and development centre for key areas such as animal production, dryland agriculture and environmental management.

New building work will enable the University of Adelaide to relocate much of its Department of Animal Science, along with Livestock Systems staff from the South Australian Research and Development Institute (SARDI).

A commitment of \$1.9 million has been made by The University of Adelaide to the project, with the South Australian Government committing a further \$1 million.

It is intended that the new centre will link the research and educational capabilities of the University into the Government's research centres in regional areas to form an integrated unit focused on sustainable livestock production.

In an effort to compliment the new directions in research and development, negotiations are also underway with TAFE to provide joint diploma courses at Roseworthy Campus.

According to the Vice-Chancellor of the University, Professor Mary O'Kane, the integration of University, Government and industry partners at Roseworthy Campus provides a unique capability to consolidate and strengthen the delivery of research, education and training that meets the requirements of the rural industries.

The new partnership at Roseworthy Campus follows the successful co-location of the University, industry and Government agencies at the University's Waite Campus. Focus at that site is plant research, soil science and wine.

## **NEWS FROM BRIAN JEFFERIES**

Brian Jefferies attended Roseworthy Agricultural College during the late 1940's and has been intimately involved in the wool sheep industry since then. In coming issues of the ROCA Digest, we will be treated to some Brian's memories of his time at Roseworthy. Unfortunately the limitation of space will not permit us to commence his story in this issue.

He is currently working as a sheep breeding consultant in South Australia and Western Australia. Brian is also working on two projects in Argentina (including the new Corino breed) and a meat sheep cross breeding project in the high rainfall areas of Southern Chile utilising Corriedale and Finnish Landrace sheep.

**RIVERLAND & MURRAYLANDS REGIONAL CENTENARY DINNER**

To celebrate the Centenary of the Roseworthy Old Collegians Association, 38 ROCA members and their partners enjoyed a Regional Dinner at the Loxton Hotel during August last year. It was extremely pleasing that the majority of members who attended the Dinner had graduated from Roseworthy within the past ten years.

Guest speaker for the evening was Mr Peter Turley (RDA 1975, RDO 1977). Peter is a fourth generation member of the famous McWilliams wine family and established his own winery at Heathcote near Bendigo in 1985.

He has since diversified into gourmet food production as a way to combat difficult wine sales. This move proved to be extremely successful and today his gourmet food range, marketed under the Dalhousie Fine Food label, includes mustards, jams and liqueur fruit desserts. The gourmet food enterprise now provides over 95 percent of the business income, with markets throughout Australia and many parts of Asia.

During the evening, Gavin McEwin (RDA 1937) made a presentation of his books, "*The Doc*" and "*The birth of notional values*", for use in local libraries.

## LETTERS FROM MEMBERS

P.O. Box 919,  
Murray Bridge  
S.A. 5253

Dear R.O.C.A. members,

I was pleased to attend the R.O.C.A. Centenary Weekend at the College in October last year. I was also celebrating fifty years since graduating from Roseworthy Agricultural College and becoming a life member of the Association.

I appreciated being presented with the ROCA Centenary Medal for services to the Association. Thank you to those who have continued to elect me onto the Committee. I have gained much from my association with the ROCA Committee.

On the reunion weekend, we did not see many recent graduates and could not fill committee positions allocated to them. We would welcome volunteers.

Perhaps many of our members only see R.O.C.A. as a social group and this is important, but the Committee spends much of its time lobbying the Government, making submissions to the University administration and other organisations on matters affecting the Roseworthy Campus and its graduates.

We need the support and views of our members to give these submissions credence. Please continue, or become an active member of R.O.C.A. and at the very least, you will enlarge your number of contacts in many fields of endeavour.

Dear ROCA,

It is with a great deal of pride I received the Old Collegians Cup and Prize presented by the Roseworthy Old Collegians Association for the second best aggregate score over the three year course. I am not sure pride is the right word, more likely stunned!

The \$60 cheque was a lovely bonus as it paid for my wife and eldest son to attend my graduation dinner. This was significant for me as I had been strongly motivated to complete the three year degree in two years. My wife and younger child had remained on our Eyre Peninsula farm while I was away at University. Yes, I even stayed on campus the last semester in the dormitory block!! Being 48 years of age with no year 12 background, the first year was pretty torrid. My eldest son was my tutor as he finished his final university studies! I loved the learning experience and friendliness of the Campus.

I cannot speak highly enough of the Bachelor of Agriculture course I did; the quality of the lecturers and the freshness of the information given was both stimulating and challenging. I believe Roseworthy is positioned to have well prepared graduates released into the workforce or research areas.

Yes, I have joined the Roseworthy Old Collegians Association and hope to promote the virtues of Roseworthy.
