FIRST AWARD OF MELBA BEQUEST SCHOLARSHIP

Examinations In February

The examinations for the first award of the Melba Bequest Scholarship for singing will begin on February 18. The scholarship is made available under the will of the late Dame Nellie Melba, in the hope that another Melba may arise. It has been decided to hold an open competitive examination, and the scholarship will be awarded in the opinion of the Director of the Melbourne Conservatorium of Music, a competitor shows sufficient promise to merit it.

If awarded, the scholarship will be tenable for a year. The holder is eligible for re-examination at the end of the tenure, but no one may hold the scholarship for more than three years in succession. It may be awarded only to girls who have attained the age of 17 years. Its average value is £109, and it entitles the holder to free Special Diploma Course at the Conservatorium.

Marvellous Mathematician

"OLD OXFORD" drops me a line to say that he was very much interested in a reference in this column by his old friend Stephen Parsons to the late Professor Sir Horace Lamb.

"The first Adelaide University graduates," he writes, "as far as I remember, started in the Training College, Grote street, where I, with a few others, attended the lectures of Professor Lamb, Davidson, Tate and the Presbyterian minister at Mitcham, I forget his name. Lamb was a most marvellous mathematician. He would fill the blackboard with all mathematical problem, written too speedily for us to follow.

Late Sir Horace Lamb

He would then turn and say, 'Is that clear?' We tried to say, 'Yes;' when one student fellow said, softo voce, 'Clear as mud.'

"The professor, seeing the doubtful look on our faces, would rub out the figures and start all over again—a little more deliberately. I wonder if he ever got so far as to finish a problem? I know, became a schoolmaster at the Burra in succession to the late Sir Frederick Holder, then a visit to England in 1899 on the invitation of the late Chief Justice Way, I breakfasted with Professor Lamb in London. How we enjoyed going through the experiences of 1877-8-9!

"'Vox's' page is as delightful as ever."

SIR HORACE LAMB

HOW HE CAME TO ADELAIDE UNIVERSITY

To the Editor

Sir—Your correspondent, my old friend and pupil, Mr. Stephen Parsons, in his letter to your issue of November 7, invests me with a dignity which I do not possess; I was never a professor in the Adelaide University, though I was on the professional board; I held for about a year the office of lecturer in Latin and Greek, my colleagues being as Mr. Parsons correctly says, Professor Lamb (chairman), Professor John Davidson, Professor Ralph Tate, and myself. The Classical professorship had been held by Professor Henry Read; he resigned, and I was appointed "to carry on" until the end of 1877, until another professor was appointed. Before I took the necessary steps to make application for the position, I consulted with the Rev. Francis Williams, of St. Peter's Collegiate School, and my old friend, Sir Charles Todd. I consulted by their approval, I made application for it, and was appointed. On the resignation of Professor Lamb, after a short occupancy of the Chair, I was once more invited to keep lectures going until I found very distinguished scholar, Professor Benaly, assumed his office, and worthily held it for several years. My separation from the lecturer had to take charge, and, for about 12 months, my son, the late Sir Lewis Boyle held the office.

My acquaintance and, indeed, I may say, my friendship with the late Professor Lamb began about many years before his arrival at Adelaide. I had just taken my degree at Cambridge before I had reached the age, and had obtained the position of a classical mastership at Stockport Grammar School. Lamb was at that time the
