ACKNOWLEDGEMENTS

This study would not have been possible without the assistance of many people. I am most indebted to my supervisors, Professor Fay Gale and Dr. Lee Sackett, for their patient guidance and inspiring suggestions throughout the course of this research. I would also like to thank Professor Gale for her encouragement during my undergraduate years.

The field research would not have been possible without the assistance of the Aboriginal community of Port Augusta. In particular I would like to acknowledge the co-operation and guidance of the Adnjamathanha Land Rights Group and the Kokatha People's Committee which accepted me into their political realms and gave generously of their time. Thanks go to Christine Wilton and Cliff Coulthard of the Heritage Unit who gave me access to the Adnjamathanha genealogies they had collected. Thanks also go to Gwen Rathman, Betty Dohnt and Lyn Freckleton who assisted me in many ways and opened their homes to me during my stay in Port Augusta.

It is hoped that this study will assist the Adnjamathanha and the Kokatha in their struggle for land rights.

Financial assistance was gratefully received through an Australian Institute of Aboriginal Studies Grant, a University of Adelaide Research Grant and a Commonwealth Postgraduate Research Award.

Finally, special thanks go to my parents and David.
