

THE UNIVERSITY.

JUBILEE CELEBRATIONS.

The jubilee of the University of Adelaide will be celebrated next month. The first gathering will be a reception by the Chancellor on Saturday, August 14, when the visiting delegates from other universities, the council, staff, members of the Senate, and a large number of prominent citizens will be entertained at a *conversazione* in the Elder Hall. All the laboratories will be open, and experiments will be made in subjects of scientific interest. Lecture demonstrations will be given by members of the staff, the lectures being arranged on a time-table, so as to give visitors an opportunity of visiting them all. Refreshments will be served in a large marquee on the tennis courts. On the following morning the Bishop of Adelaide (Right Rev. Dr. Thomas) has promised to arrange a special service at St. Peter's Cathedral, and deliver an address. There will be an academic procession comprising the delegates, members of the council, staff, and senate.

On the Monday a special congregation will be held, when visiting chancellors, vice-chancellors, and professors will receive *ad eundem* degrees. Addresses will be delivered by the Chancellor and distinguished visitors. In the evening a special conservatorium concert will be given.

The official opening of the physics and engineering building will take place on the Tuesday morning. The Premier (Hon. J. Gunn) will be asked to perform the ceremony. In the evening the council will entertain the delegates, State officials, and University staff at dinner in the Town Hall. It is expected that there will be about 200 guests. Inter-University hockey and football will be played by the students on the Tuesday and Wednesday afternoons. Motor excursions have also been arranged for those days.

On Wednesday morning the visitors will inspect the Waite Agricultural Research Institute at Urrbrae, and will be shown the various experiments in progress. In the evening a students' gathering, arranged by the women's union, will be held in the Elder Hall.
