

29 September 1933.

Dr. E. Anderson,
Arnold Arboretum,
Jamaica Plain,
Mass., U.S.A.

My dear Anderson:

Your letter was a great pleasure, and you have just hit the nail on the head as regards the position at University College. Let me know from time to time how you are fanning, and of course if in London again you must not fail to spend some time at the new Labs.

I can arrange at first for no plant work, but am comforting myself with a few friendly snails and mice.

Yours sincerely,
