The War Office,

A.M.D.5.

London, S.W.1.

25 October, 1944.

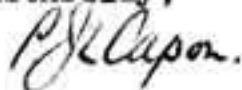

Dear Sir,

Reference your letter of 19th
October, 1944.

Your article on "The Therapeutic
Use of Vitamin C" is being published
in the Journal of the R.A.M.C. for
November, 1944.

Owing to printing difficulties
and the uncertainties of postal arrange-
ments, it is not possible to send
proofs of the paper to you. Your
article will, however, be carefully
read.

Yours faithfully,

Lieut.-Colonel,
Asst. Editor.

Captain W.R.G. Atkins, F.R.S., R.A.M.C.,
Meteorological Office,
Air Ministry,
Stonehouse, Gloucestershire. P.T.O.

26/10/44

Dear Fisher

The paper is of course in
our joint names. I don't know
whether we get any reprints, but
as I have before now been
sent reprints of the Coqs
journal articles I expect we
do. I am greatly obliged to you for
your collaboration. Your thoughts
work into that vitamin C job &
ended by getting much interested.
But titrating (and collecting) 5000
urines, is a bit stiff. Hope all
goes well with you. I am in a
pleasant spot with excellent
opportunities for most interesting
research - a blend of the physical &
physiological - mostly on
viscosity. Yours sincerely
W.R.S. Atkins
