

2nd March, 1957.

My dear Chester,

Thank you for your letter and your enclosure to Fred Mosteller. I particularly wish to visit Harvard again, since 21 years ago they were good enough to bestow an honorary doctorate on me on the occasion of their tercentenary, and I have not managed to make an opportunity of visiting the Yard in the intervening 21 years. I suppose a short visit to Raleigh might even mitigate the rigours of a New England winter, but perhaps it is cold everywhere at that time of year. No lectures will be needed in the Virgin Islands!

Sincerely yours,
