

January 3, 1939

Dear Dr Vaughan,

I am enclosing an offprint from Nature of our letter (27) on surnames and blood-groups, and shall be glad to know how many you would like <sup>for</sup> ~~to~~ sending out. I am sorry that, after proof stage, they chose to disguise from the enemy the location of your activities and turned the first paragraph into mild nonsense in so doing.

I ought to add that the 9th name "Williams" was in fact used, but omitted in error from my draft of the letter.

Yours sincerely,

[CP 171] JHP
