London, E.C.2.

15th August 1941.

Professor R. A. Fisher,
The Galton Laboratory,
Rothamsted Experimental Station,
HARPENDEN. Herts.

Dear Sir,

My brother, Charles, is in the United States on Government business until, probably, the early part of next year. As I have been writing to him I have included the first paragraph of your letter for him to deal with.

As regards the second part of your letter, it is probably unsuitable to go through the Censorship and anyhow he could not put through any enquiries in the United States. I have, therefore, not included it.

Yours truly,

WRD Dawkins

*His address is
The Shoreham
Connecticut Av.
Washington DC*
