Dear Doctor Fisher:

The Forest Management Division, which is responsible for ordering reprints of our article on Covariance, has requested that I find out how much each copy will cost. It seems they cannot put in the order to the Department until they know definitely. I am sorry to trouble you for this.

The carbon copy which you sent me has arrived.
Thank you so much.

I must protest against having the place of senior author as I certainly do not deserve it.

Very sincerely yours,

Besse B. Day
