

SIXTH INTERNATIONAL CONGRESS OF GENETICS

to be held at

ITHACA, NEW YORK, U. S. A., AUGUST 24-31, 1932

Office of the
Program Committee
BUSSEY INSTITUTION
HARVARD UNIVERSITY
Jamaica Plain, Mass., U.S.A.

May 5, 1932

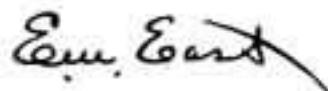

Mr. R. A. Fisher
Rothamsted Experimental Station
Harpenden, Herts., England

Dear Mr. Fisher:

Many thanks for the letter containing
the title of your Congress address.

If you are going to mention my work
on Lythrum, may I call your attention to a short
paper on the subject that has just appeared in
the last number of GENETICS. The reprints have
not yet arrived, but I will send you one as soon
as they do.

Sincerely yours,

E. M. East
Chairman, Program Committee
