

4th August, 1947.

My dear Henry,

Thanks for your letter and that of Sheppard which I am returning herewith. I am also sending the results of calculations on the Scilly material and enclosing your sheet and mine with the letter I drafted yesterday, which I hope will be legible. It will be best to keep these altogether. I am afraid what I have done will be very hurried as I have had to spend all Saturday and Sunday trying to clear up such arrears.

Yours sincerely,
