DEPARTMENT OF
ZOOLOGY AND COMPARATIVE ANATOMY,
UNIVERSITY MUSEUM, OXFORD.

November 18th 1946.

My dear Ron,

It was indeed delightful to have you here. I was sorry to find I had not given you a copy of the dominula paper for the addition of the two sections which none but you can make, if you will be so kind.

I have made the corrections in it - which he suggested. You will see there are a few notes in regard to the first of these two sections (which

is in the middle). The 2nd section, which
is to find the paper, is practically the letter
you wrote me in regard to the bearing of
the observations on S. Wright, just adjusted
to form a final section to the paper

Yours truly,
Henry
