My dear Friker,

Thank you so much  
for all your kindness yesterday.  
It was very good of you to  
give up so much time to  
me.

I am very glad to  
hear that the data are at-  
any rate worth considering.  
In ten days or so, if you  
or Stevens have had a

Further chance to look at  
them, perhaps it would  
be best if I came up for  
a couple of hours again.

It was so nice to see you.

Yours sincerely,

E. B. Ford
