

DEPARTMENT OF
ZOOLOGY AND COMPARATIVE ANATOMY.
UNIVERSITY MUSEUM, OXFORD.

Monday.

mid October 1938,
-JDB

My dear Fisher,

I have some data
on which I should be very
grateful indeed for your
opinion. If I might do so,
it would be better to come
and discuss it with you (rather
than to send it) as I can
explain the circumstances more
fully, and show you specimens
illustrating what has been
done.

This is a very busy time
so I cannot get away on certain
days of the week, but could
manage either Tuesday or
Wednesday next week (1st or 2nd)
and could reach your department
by 11:30. Be sure to let me
know if this is in any way
inconvenient for you, but if you
could spare me half an hour
or so I should value it very
much.

Ever yours,

E. B. Ford.
