

DEPARTMENT OF  
ZOOLOGY AND COMPARATIVE ANATOMY,  
UNIVERSITY MUSEUM, OXFORD.

June 1<sup>st</sup>. 1938.

My dear Fisher,

Thank you so much for your very kind letter. It is the greatest encouragement to me that you should think well of the book, for you know that I particularly value your opinion. I did my best to write in decent English and make it readable. Should it ever come to a second edition, I shall get your advice on ~~that~~ passage about fluctuation in numbers, and I should be most grateful for any other point that may strike you.

Yours sincerely,

E. B. Ford
