Prof.Dr.R.A.Fisher,  
Galton Laboratory,  
University of London,  
England.

Dear Dr.Fisher,

I have not heard from you for a long time, though I keep interested in the development of your methods of Statistics.

I am fortunate to tell you a great deal of information has been achieved by applying the modern methods of statistics to field experimental work.

I want let you know I have changed my address, as I am now Professor, Geology and Soil science at the National School of Agronomy.

I do hope<sup>to have</sup> an opportunity of going back to England, and renew our acquaintance.

Hoping to hear from you whenever you find convenient, I remain,  
dear Dr.Fisher,

Sincerely yours,

*A. O. Franco*
