Dr. O.H. Frankel, Chief, C.S.I.R.O. Divn. of Plant Industry, CANEERRA. A.C.T.

My dear Otto,

I feel sure you are right, that what was printed was the earlier version that I first sent you. You may recall urging me strongly to expand this as what I had written was indeed all too brief; so in the intervening weeks I worked on it some more, and I hoped improved it greatly. I included actual quotations establishing various historical points.

Seeing what Eiseley has been writing in America, and Darlington in England, the need for such historical documentation mist be impressing me, and this I think accounts for mydisappointment on finding this passage apparently deleted.

I am sure I did hand in a perfect copy of the final version.

Sincerely yours,

Ronald
