

13th. January 1946.

My dear Professor Freschet,

I do not think we have yet fixed a date for my visit to Paris. Since full term here starts actually before Easter it would be most convenient for me to visit France in the first half of April, e.g. 1st - 15th. If you let me know that this is possible I will endeavour to obtain transportation for that time, which I find must be booked very early.

I will be sending my lecture material for translation in the near future.

Yours sincerely,
