Dear Gray,

I have received the enclosed programme for the A.R.C. Breeding Survey Group. I shall be away on the 17th, as the Genetical Society is meeting that day, but could be present on the 18th. I see however that my name is put down for 9.30 a.m. in Storey's Way, which, as Whittingehame Lodge is not available, had better be cut out. I should be glad to join the party at 10.15 or so at the University Farm and see what there is to be shown.

Yours sincerely,
