November 18th, 1935

Dear Professor Jeffery,

I have received, as referee, the enclosed paper by Newman and Pearson submitted for publication by the Royal Society. I enclose, too, some notes which I have made on it. Perhaps, at your convenience, you can let me have both back.

I am sorry I cannot form a more favourable opinion of the paper. Of course I do not know how far you have examined it critically before submitting it for publication; but if you have found any reason to dissent from the statements I have made, I should be very glad to know of it, and to discuss the matter with you.

Yours sincerely,

R. A. Fisher
