

June 8, 1938

Dear Jeffreys,

Thanks for sending me your paper, which I am returning herewith. As I could not publish it in the Annals, at least for some time, perhaps you would try what some other journal, such as the Proc. Cam. Phil. Soc. thinks of it.

I rather like the word you suggest, "estimand", but I fancy "standard deviation" and "standard error" are too well established to be shifted.

Yours sincerely,
