Dear Mr. Caradog Jones,

I am much interested in your letter of 4 January, and should be especially glad to take an opportunity of meeting you, as I have been a good deal interested in your statistical work.

If it were convenient to you to come down and lunch with me about 1 o'clock on Saturday, we should have time to talk things over in the afternoon.

Yours sincerely,

P.S. You could catch me at the Lab any time before 1 o'clock.
