Dear Prof. Mahalanobis,

I have no hesitation in recommending for publication your valuable study of measures of racial likeness. I hope the Royal Anthropological Institute may publish it, though I have not heard yet. Mr Udney Yule agrees with me entirely as to its value. "Metron" would make quite a suitable medium, but I believe the ease with which publications are accepted depends sometimes on the state of its funds, and I have no recent information as to how they stand.

Yours sincerely,
