

---

25th October, 1956.

My dear Kenneth,

I was very glad to see an extract from your letter of October 15th to Cyril Darlington, and I find myself in entire agreement with his own views on what you suggest. I do hope you will find it possible, in your own time and manner, to take a substantial part in the control of the Journal, and of course I think you are the very man to prevent that control getting narrowed in its genetical interests. This will have to be borne in mind if, and when, you come to propose a list of directors.

Sincerely yours,
