

THE UNIVERSITY OF BIRMINGHAM

DEPARTMENT OF GENETICS

HEAD OF DEPARTMENT AND DIRECTOR OF
AGRICULTURAL RESEARCH COUNCIL UNIT
OF BIOMETRICAL GENETICS

PROFESSOR KENNETH MATHER
C.B.E., D.SC., F.R.S.

TELEPHONE: EDGBASTON 1552

EDGBASTON,

BIRMINGHAM, 15.

29th November, 1958

Professor Sir Ronald Fisher, F.R.S.,
Department of Genetics,
Whittingehame Lodge,
44, Storey's Way,
Cambridge.

My dear Ronald,

I have recently received the enclosed manuscript from P. O'Donald in the Department of Genetics, Cambridge. It is a joint paper by himself and P.E. Davis of the Fair Isle Bird Observatory. I wondered whether you had seen it. I would, in any case, be most grateful for your comments on its suitability for publication in "Heredity". O'Donald very nobly told me that it had been refused by "Evolution".

Best wishes,

Sincerely yours,

Kenneth Mather

P.S. I have also just received, for "Heredity", a paper by Bodmer and Parsons on "Factorial Analysis of Balanced Four and Higher-point Linkage Tests". Have you seen it? If not, I would be grateful if you would allow me to send it on to you for your opinion.

K.M.
