Professor Sir Ronald Fisher, F.R.S.,
Department of Genetics,
Whittingehame Lodge,

Cambridge.

My dear Ronald,

Many thanks for looking through
Jardine's paper, and for your comments on it.
I am writing to him accepting the paper, but
at the same time passing on your comments so
that he can take them into account.

I find that I have not yet replied
to your letter of the 25th about Lindley's
review. Would you care to take up yourself
the mathematical point you mention? I think
it might be difficult now to get a note from
you into the May number, which is already in
the press; but if you care to write something
it could go into the August number.

Sincerely yours,

Kenneth
