

10th July, 1951.

My dear Mourant,

I think I mentioned to you the President of Chicago University having taken over the directorship of the New World Foundation. I have now dug out the name of this Aristotelian philosopher, which is R.M. Hutchins. I gather that the more active part of the organisation, the Vice President or chief Secretary, is a certain Dr. Hoffman. I should bear them in mind when you plan a reseau mondial for blood groups.

Hoping to see you on Saturday.

Yours sincerely,
