

-----

26th September. 1956.

My dear Payne,

The sheets I sent you before, namely C and D, did not use the general approximation to the 6th degree, and I am sending what has now been good enough to check, and so is presumably right, the last term on page C, but I have done nothing about developing the corresponding term on page D. Perhaps you will send back your old C page and replace it with the one enclosed herewith.

Sincerely yours,

Enc.
