

6TH January, 1930.

Professor V. Romanovsky,
Tashkend University,
TASHKEND,
Russian Turkestan.

Dear Professor Romanovsky,

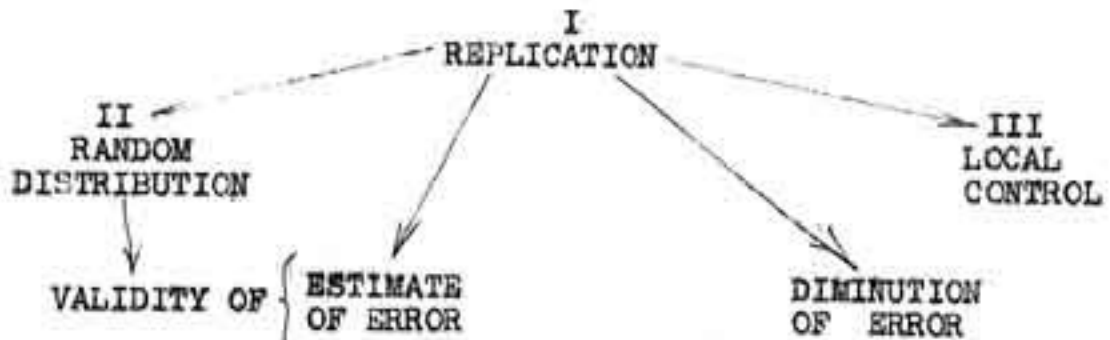

I hope you found your family well on your return to Turkestan.

The title of the book you refer to is:-

"PROBABILITY AND ITS ENGINEERING USES" - Thornton

C. Fry. New York: D. Van Nostrand Co., Inc. 1928.

I am not sure what you refer to about Plot experimentation. You have my book and various papers on the subject. There is in my laboratory a diagram illustrating the logical position of the three principles of plot experimentation:-

Perhaps it is to this that you refer.

With best wishes,

Yours sincerely,
