

12th July, 1935

Dear Thornton,

I have just finished correcting the page proofs, and send you a copy. I hope to goodness you may find it intelligible, and I really believe it is easier reading than Statistical Methods was. Perhaps you would hand on the copy to Yates when you have seen all you want of it, and I should be very glad indeed to have your comments and any corrections that occur to you.

Yours sincerely,

Dr. H.G.Thornton
