

17th January, 1949

My dear Gerard,

Many thanks for your very kind letter. Cavalli certainly enjoyed his stay with you and came back full of ideas for possible work with some of the material which, I think, you could spare him, however, he is also full of ideas on other things and will be working with very little assistance at first, so he will not be able to start everything at once.

I am exceedingly glad you liked him. I feel sure that the contact of our departments will continue.

Yours sincerely,
