

24th. August 1946.

Dear Professor van Uven,

I received your letter on my return from the United States, and was glad to hear that you had survived the ordeal of your country without more loss than you report.

I am glad to find that a suitable journal has been arranged for your paper, which sounds, for I have not seen it, of considerable

interest. I shall look forward to seeing it on publication.

With best wishes,

Yours sincerely,
