

March 23, 1937

Dear Dr Watson,

I have your letter of March 1st, and enclose a statement of the College fees payable by voluntary workers and advanced students in this Department. I have every expectation of being at the Laboratory in the year 1937-8, and I think you would find the facilities for study of statistical methods and experimental design to be what you need. We are, of course, in touch with research stations in this country, especially concerned with genetical work or field experiments, and our students are able to see all that is being done in this country.

Yours sincerely,

R.A.FISHER

Fees payable:

Entrance Registration Fee	£2. 2. 0
Composition Fee (Research fee and lectures)	17.17. 0
Calculator Fee	<u>4.14. 6</u>
Total	£24.13. 6
