

7 August 1930.

Dr W. Weinberg,
Hohenstanfenstrasse, 7,
STUTTGART,
GERMANY.

Dear Dr Weinberg,

Thanks for your interesting letter. You may be interested in the way I regard the Maximum Likelihood method to be related to Inverse Probability, in the enclosed paper which will be the substance of an address for the mathematical section of the British Association this year.

Let me have it back.

Yours sincerely,
