

25 April 1933.

Dr. J. Wishart, F.R.S.E.,
School of Agriculture,
CAMBRIDGE.

Dear Wishart:

After consulting "The Times" and I am afraid unduly delaying the matter by going away, I think it would be best for you to write them a short letter disclaiming the suggestion that I was engaged in work on behalf of the Society for Psychical Research. As a bare disclaimer sometimes seems rather dull it might afford an opportunity to indicate the scientific interest of randomisation as a recent development in the art of experimentation; as it was really my connection with this that led you originally to mention my name.

"The Times" have shown themselves quite anxious to put the matter right.

Yours sincerely,
