

**“Expression of Bone Resorption
Markers in Gingival Crevicular Fluid of
Rheumatoid Arthritis Patients with and
without Periodontitis. A Pilot Study”**

A report submitted to the University of Adelaide in
partial fulfilment of the requirements of the Degree of
Doctor of Clinical Dentistry (Periodontology)

Kere Kobayashi

Table of Contents

Declaration.....	i
Acknowledgements	ii
Chapter 1. “A Review of Bone Resorption Markers in Rheumatoid Arthritis and Periodontitis and the Current Literature Linking the Diseases”	1
1.1 Introduction.....	2
1.2 Biology of the Alveolar Bone	3
1.2.1 Bone Cells.....	3
1.2.1 Bone Formation	4
1.2.2 Bone Resorption.....	5
1.3 Bone Remodelling	5
1.3.1 Osteoimmunology – The Expression of RANKL/RANK/OPG	6
1.4 How Does The Expression Of RANKL/RANK/OPG Relate To Periodontitis?	9
1.4.1 RANKL and OPG Levels in Different Forms of Periodontal Disease	11
1.4.2 Does the Expression of RANKL and OPG Correlate to Periodontal Disease Severity and Disease Progression?	12
1.4.3 The Use of RANKL/OPG as a Treatment Possibility for Periodontitis	13
1.4.4 Periodontopathogens and Their Influence on RANKL and OPG.....	15
1.5 Gingival Crevicular Fluid	16
1.5.1 Gingival Crevicular Fluid Related to Systemic Conditions.....	18
1.5.2 Alterations in GCF Associated with Systemic Disorders.....	18
1.6 Periodontitis and Systemic Disease	18
1.7 Rheumatoid Arthritis	18
1.7.1 The Course of Rheumatoid Arthritis.....	20
1.7.2 Diagnosis of Rheumatoid Arthritis	20
1.7.3 Rheumatoid Arthritis Therapy	22
1.7.4 Pharmacotherapeutic Management of Rheumatoid Arthritis	23
1.7.5 Rheumatoid Arthritis: Pathogenesis	24
1.8 Rheumatoid Arthritis and Periodontitis	25
1.8.1 Clinical Evidence for an Association between Rheumatoid Arthritis and Periodontal Disease.....	26
1.8.2 Pathogenesis Theories linking Rheumatoid Arthritis and Periodontitis.....	27

1.8.2.1 Genetics factors in RA and Periodontitis.....	27
1.8.2.2 Inflammation in Rheumatoid Arthritis and Periodontitis	27
1.8.2.3 Autoimmunity in Rheumatoid Arthritis and Periodontitis.....	28
1.8.3 Rheumatoid Arthritis and Periodontitis Animal models: Periodontitis	
Primes Rheumatoid Arthritis and Vice Versa.....	31
1.8.4 Rheumatoid Arthritis and Bone Resorption Markers	33
1.8.5 Gingival Crevicular Fluid Studies and Rheumatoid Arthritis.....	34
1.9 Periodontal Treatment Affects Rheumatoid Arthritis.....	35
1.10 Effect of Rheumatoid Arthritis Treatment on Bone Remodelling and	
Periodontitis	36
1.11 Conclusion	38
1.12 Aims of the Study	38
1.13 Hypothesis.....	38
1.14 References.....	39

Chapter 2. “Expression of Bone Resorption Markers in Crevicular Fluid of Rheumatoid Arthritis Patients with and without Periodontitis”53

2.1 Introduction.....	54
2.2 Methods and Materials.....	57
2.2.1 Patient Selection.....	57
2.2.1.1 Study Population and Clinical Examination	57
2.2.2 Site Selection and GCF Sampling.....	58
2.2.2.1 GCF Sampling	58
2.2.3 sRANKL Analysis in GCF	58
2.2.3.1 Enzyme Immunoassay	58
2.2.4 Statistical Analysis.....	59
2.3 Results.....	59
2.3.1 Comparison of RANKL Concentrations Between Groups.....	60
2.3.2 Comparison of Total RANKL Values Between Groups.....	62
2.4 Discussion	63
2.5 References.....	67

Acknowledgements

This study was supported by a grant from the Australian Dental Research Foundation.

This degree would have not been possible without the support of many people. I thank my supervisors Prof. PM Bartold and Dr Bryon Kardachi for their patience and guidance throughout the duration of my Doctor of Clinical Dentistry program.

I am also indebted to Dr Tracy Fitzsimmons for her expertise and persistence in the laboratory phase of this study.

Most importantly I would like to thank all my friends and family who have supported me throughout this long journey. Without their constant encouragement and unwavering support this would not have been possible.

Finally, I would like to dedicate this to my grandparents Matt and Jean Kobayashi and Noel Nicholls who saw me begin this journey but unfortunately were not able to see me finish.
